

Book Fair eWallet Information

This year, Scholastic has added a NEW payment form -- the eWallet. This is an online method of payment that helps ensure a secure way for kids to purchase books without having to worry about money or checks on-hand. You, the parent, are able to provide immediate funds with a pre-authorized amount of your choice for your student and the Book Fair coordinators are then able to look up your child's info through the register during the fair. You, the parent do not have to have a printed version for the fair or anything showing you have the eWallet. It will show up automatically in the system.

How do I sign up??

Register through your child's Book Fair Homepage found below:

<https://goo.gl/Mf5HrF> for Wakefield Building (Grades Pre-K-2)

<https://goo.gl/ANKMkM> for Homestead Building (Grades 3-5)

Please note, each student must have an individual eWallet. Accounts cannot be shared or transferred. There, you will add the amount your child is allowed to spend and it will show up as a pre-authorized charge on your credit card. Whatever is NOT spent during the fair, will then get put right back onto your card. Additional funds AND cancellations can be done at any time and you are also able to track spending and account activity for your child through the site.
